INTRODUCTION TO COMPUTERS: Hands-On with LAB SESSIONS

Glenwood would like to help you “Learn the basics”.

If you have never used or owned a computer or are just learning, this is the class for you.

Learn:

- Hardware: basic parts of the computer
- Software: telling the computer what you want it to do
- Internet: basic use
- E-mail: how to send and receive messages, work with pictures and attachments

This four-week lab is available for anyone that would like to learn more about the computer.

Each session will begin with basic instruction and then will be followed by lab time where attendees can use the computers provided. The sessions are all based upon participants learning how to become comfortable using a computer.

LAB TIME will be available during the week for individuals to use the computers for the class subjects.

CLASS SESSIONS:	Thursdays, April 10, 17 & 24 from 2:00 – 3:30 PM
ADDITIONAL LAB TIMES:	Mondays, April 14 & 21 from 9 – 10 AM
	Wednesdays, April 16 & 23 from 2 – 3 PM
SITE:	Glenwood Blue Hill Learning Center (South Building on main street)
CHARGES:	FREE – Glenwood would like you to learn more about the computer and internet
